

The City of Sioux Falls and South Dakota Department of Transportation (SDDOT) hosted a Pre-Construction Open House to inform stakeholders and the public of plans for construction related to the 41st Street DDI. The meeting took place in a vacant storefront at the Empire Mall.

200+ ATTENDEES INCLUDING

- Project team members
- Business owners & residents along the corridor
- Members of the general public
- Families & children
- City and SDDOT officials
- FHWA staff

The Open House allowed the public to ask questions and talk one-on-one with the contractor, SDDOT, and City representatives about the project. Attendees learned about the project sequencing and proposed two year construction schedule.

PUBLIC INPUT & FEEDBACK THEMES

Videos and displays aided in understanding

Pedestrian safety during construction

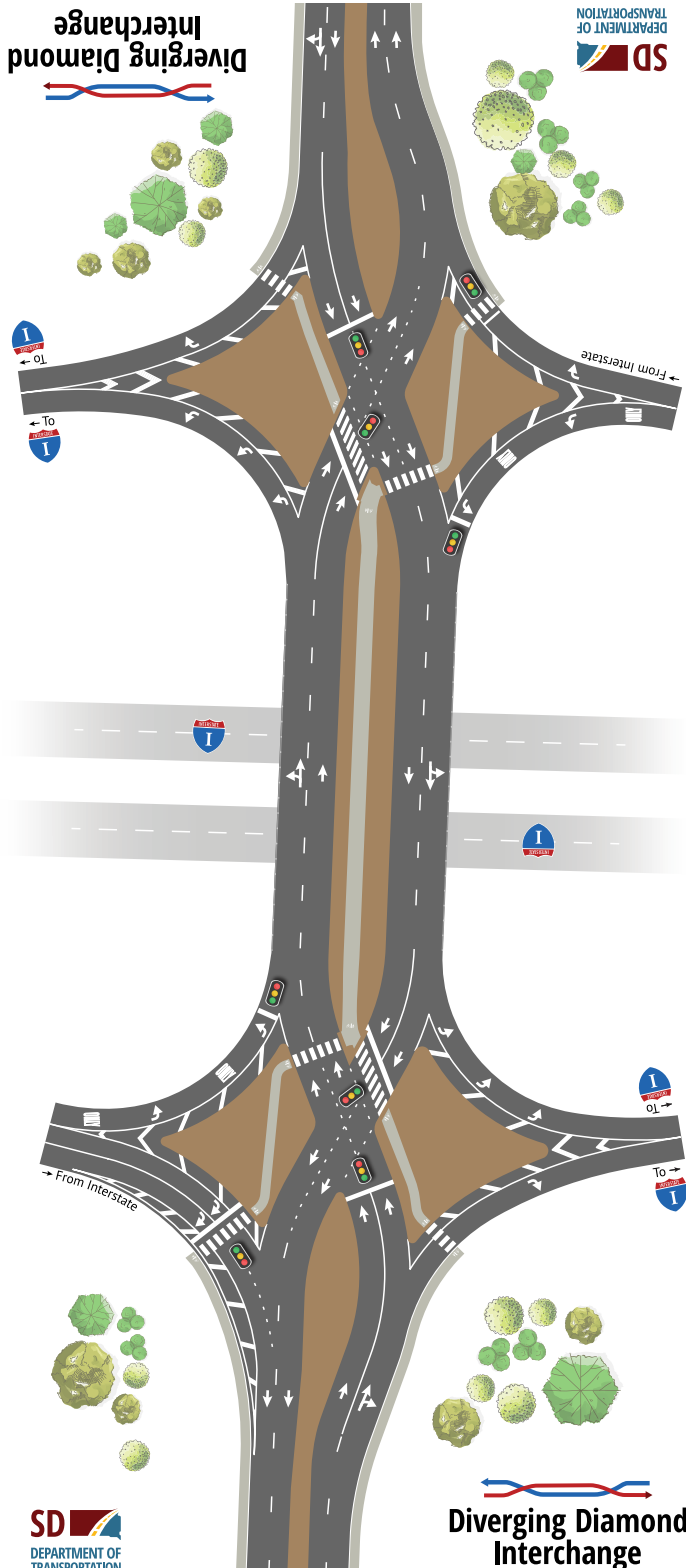

Turning lanes

Medians

Traffic on detours

MEETING TOOLS

Many tools helped this meeting in its success including the large print floor map of the diverging diamond.

Additional public engagement tools included :

- Rendering videos
- Landscaping renderings
- Construction sequencing
- Traffic modifications
- Detour routes
- Tips for navigating construction
- Scroll map of project area
